DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claim 1 claims an adjusting apparatus which comprises of a fixed plate, a sliding stand and a carrier; wherein the carrier is placed on the sliding stand and the sliding stand is carried on the fixed plate. Each of these has specific shapes and mounting components as claimed in claim 1. The specific bulges, fixing device, adjusting devices, etc. were not found in the prior art. For example US 6,814,449 to Yamada et al. teaches in figures 13 and 20 an adjusting apparatus for holding a rear projector which comprises three main parts as the current invention, however those three parts do not include all of the bulges, fixing devices, and adjusting devices claimed in applicant's claim 1. Another example is US 6,709,184 to McDonald, which teaches in figure 2 an adjusting device, which does include bulges but does not include adjusting devices and fixing devices. Accordingly since the prior art does not teach all of the various devices claimed in claim 1 and in the configuration of the claim 1, and since it would not be obvious to add them other than by using hindsight to either Yamada or McDonald, Claim 1 is allowable. Claims 2-10 are dependent on claim 1 and are therefore also allowable. All claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

US 2,922,609 to Collier teaches a 3 level stand which does not include all the claimed components.

US 6,059,413 to Okubo teaches in figure 4 as well as other figures a adjusting apparatus for a rear projection projector.
